MR. BRYCE ON ANGLO-SAXON UNION.

Mr. Bryce's plea for, or vindication of, Anglo-Saxon union, in "The Atlantic Monthly" for July, is noteworthy in many respects. One, that Mr. Bryce is one of the foremost thinkers and writers in the English-speaking world. Another, that he is the Briton who of all knows America best- so well, indeed, that he has become one of the foremost teachers of Americans of things pertaining to their own country. A third, that he is a leader of that British school of statesmanship which is continually being held up as an example and a rebuke to those Americans who are charged with the heinous sins of "Jingoism" and "Imperialism." When any one wants to learn all he can about our system of government and "American institutions" in general he turns to Mr. Bryce's books. When any austere restrictionist wants to rebuke Americans erushingly for seeking to follow to its logical conclusion the policy of territorial extension founded by Adams and Jefferson and maintained by their best successors he points to Mr. Bryce as a type of what we should strive to be. It looks, therefore, as though Mr. Bryce's words on this topic should be accepted as words The practical narrowing of the world by the

use of steam and electricity has caused the absorption or subordination of the lesser Powers, until now there are only five real world Powers, four in Europe and one in America, and only four world races. Among the four European of Powers there are no special affinities nor natural alliances. They are of different races and spirits, all jealous of each other, and some of them actually hostile. Such alliances as tre formed are purely artificial and not enduring. One of the Powers, Great Britain, however, looking across the Atlantic, sees in the fifth other.

Other Republican gains which are considered certain are the seats in Wisconsin, North Da-Congressman Champ Clark is to be the Fourth | kota, New-Jersey and Maryland, The victory of July orator at Springfield, Mass brilliant young Republican chosen to succeed Gorman.

These changes alone would bring the Republican strength in the Senate up to forty-eight, that has taken place on July 13 in that sound money strength to fifty. It is possible hundred years. The that Wolcott, of Colorado, Shoup, of Idaho, and Chandler, of New-Hampshire, would refuse to would still leave the sound-money men with &

strength to fifty-five, or a majority of twenty, without counting the three Republicans who may prove unsound. The existence of a soundparties. Two or three votes of this majority have been obtained by setting contestants, but Then, welng the smiles on the Republican organization had substantially a majority of fifty when Congress organized.

Some of the more enthusiastic supporters of is as deep the Administration believe that the feeling in The credid craze has struck Japan with as favor of the Spanish war will brush every other The counts from Europe are not particularly bright as to the demand for goods, while mill stocks of cotton on June 1 were in Great Britain and on the Continent 1,168,000 bales, against 741,000 a row variety, rather small in size, which enthusiasts content for at the rate of a thousand dollars and period of uncertainty about future demand for goods and future prices of materials. The reduction in price of Clay worsteds is interpreted as a rather hopeful sign, in view of the reported change of terms about dating and restriction of price for two months but possess.

For this teason the business community will probably be asked to support sound-money candidates. Republicans in most cases, but Sound Money Democrats in a few cases, who are known to be favorable to currency reform. The danger of Republican defeat in the House lies as much in local conditions in New-Yerk, Pennsylvania and other States as it does in the National issues which will be discussed, and if the business men support the candidates of the Republican organization in these States they will probably exercise considerable discrimination as to their character and economic crimination as to their character and economic
